Disclaimer: SBD Good Neighbor Program

SBD Good Neighbor Program Noise Report presents noise monitoring information managed by the SBD Good Neighbor Program. SBD International Airport has no authority over the movement of aircraft or the direction of flight. The authority to regulate flight patterns of aircraft is vested exclusively in the Federal Aviation Administration (FAA). FAA air traffic controllers have the responsibility for directing aircraft on the ground and in flight, and the pilot in command has the final authority as to the safe flight of their aircraft. Pilots in command make the final decisions relative to runway use; therefore, pilots may request to use any available runway. Neither the airport nor the FAA air traffic controllers may restrict a pilot's access to an available runway.
